

TECHNICAL SEMINAR & WORKSHOP

Optimizing Your **RO Plant** Operations

Run a smarter, better and more efficient RO plant.

A focused technical forum combining advanced membrane science, practical optimization strategies and local engineering support for Bahrain's water and desalination sector.

MONDAY

14

SEP

2026

TIME

9:30 AM - 1:30 PM

VENUE

**Mövenpick Hotel Bahrain,
Muharraq**

COMPLIMENTARY - LIMITED SEATS

Applied insight for better RO operations.

PROGRAMME

- 01 **09:30 AM**
Registration, Welcome Coffee & Networking

- 02 **OPENING**
Welcome & Introduction

- 03 **SESSION 1**
RO Optimization & Membrane Performance

- 04 **SESSION 2**
Smart Analysis & Predictive Chemistry

- 05 **BREAK**
Coffee & Peer Discussion

- 06 **SESSION 3**
Performance Monitoring & Operational Insights

- 07 **SESSION 4**
Pretreatment, Fouling Control & Membrane Cleaning

- 08 **CLOSING**
Q&A, Executive Lunch & Networking

FEATURED TECHNOLOGIES

A

PROTON

Predictive scaling and dosage calculations

B

SMOOTH OPERATOR

RO normalization and performance monitoring

C

MEMBRANE CHEMISTRY

Antiscalants, cleaners and biocontrol solutions

D

ANALYSIS & CLEANING

Diagnosis, autopsy and cleaning protocols

MEET THE EXPERTS

Matt Armstrong

Global Sales Director, AWC

Gabriele Brummer, M.S.EnvE

European Technical Sales Engineer, AWC Europe

Muhammed PK

Founder & Managing Director, MI Technical

REGISTRATION

sales@mitechnical.net

+973 1365 4422 | mitechnical.net

Final session timings remain subject to organizer confirmation.
